Name: **Three Mile Island Alert** **TMI-TMIA**

Material: Papers (1965-2002; Bulk 1979-1994)

Volume: 92 linear feet (82 Document Boxes, 1 Oversized Folder, 5 Photograph Folders)

Donation: Gift of Three Mile Island Alert, 1989-2004

Usage: These materials have been donated without restrictions on usage.

HISTORICAL NOTE

Three Mile Island Alert (TMIA) is a not-for-profit citizens' organization dedicated to the promotion of safe-energy alternatives to nuclear power. Founded by concerned citizens of the Susquehanna Valley area when the Three Mile Island nuclear power plant was under construction in 1977, TMIA has been especially critical of Three Mile Island and its operators. The organization became more active after the accident at the TMI-2 reactor and continues to publish materials on the potential dangers of nuclear power and TMI.

COLLECTION DESCRIPTION

The Three Mile Island Nuclear Power Plant is located near Middletown, Pennsylvania. It consists of two nuclear reactor stations, Unit One and Unit Two. The Unit Two station was the site of the most serious accident in United States nuclear power plant operating history. The accident took place on March 28, 1979 at four o'clock in the morning. The accident and the subsequent investigations had profound effects on the commercial nuclear power industry in the United States.

The Three Mile Island Alert Collection consists of the various papers, government documents, legal documents, transcripts, and publications collected and maintained by Three Mile Island Alert, Inc. The collection is divided into seven record groups as follows: RG 1 - Three Mile Island Alert, RG 2 - Nuclear Regulatory Commission, RG 3 - Nuclear Regulatory Commission Directed Legal Proceedings, RG 4 - General Public Utilities, RG 5 - Groups and Organizations, RG 6 - GEND Reports, and RG 7 - Mixed Media. The materials in this collection range in date from 1965 to 2002, with the bulk of the material falling between 1979 and 1994.

More detailed descriptions of the record groups appear before each inventory, and details of the organization and content of individual series precede the inventory of each series in the collection. A list of commonly encountered acronyms and an outline of the complete collection to the sub-series level have been provided following this description.

LIST OF ACRONYMS

The following list represents the most common acronyms for organizational names and technical terms found in the TMI-TMIA Collection. These acronyms may be found in lieu of the full-length title of groups or terms without being previously indicated.

RG 1 – THREE MILE ISLAND ALERT

RG 1 DESCRIPTION

The Three Mile Island Alert (TMIA) record group consists of the following ten series: Correspondence, General Business, Legal Papers, Newsletters, Press Releases, Programming Events, Miscellaneous, Photographs, Artifacts, and Audio Recordings. The materials in this record group were generated by TMIA and its members, or else collected (see especially series 1.3, Legal Papers) in the course of their activities.

Descriptions of the organization and content of individual series are provided directly before the inventory of each series.

RG 1 INVENTORY

RG 1 – THREE MILE ISLAND ALERT

Series 1.1, Correspondence, is arranged into two sub-series, TMIA and Widoff, Reager, Selkowitz and Adler, PC; Attorneys & Counselors at Law (one of the firms representing TMIA in legal proceedings). The letters within each sub-series are arranged chronologically with the letters sent and received interfiled. Other correspondence generated on behalf of TMIA is housed in series 1.7.3 and 1.7.15 under Christic Institute and Government Accountability Project (GAP) respectively. These two organizations argued legal matters on behalf of TMIA, with Joanne Doroshow of Christic and Lynne Bernabei of GAP being the principal attorneys for TMIA following the exit of Widoff, Reager, Selkowitz and Adler from the legal proceedings in 1980.

Series 1.3, Legal Papers, is arranged into eight sub-series by topic or type of material. The Joint Mailgram Exhibits sub-series is arranged sequentially by number of exhibit. With few exceptions, this sequential ordering also corresponds to the chronological ordering of the materials in the sub-series. An inventory of contents of the specific exhibits contained in the sub-series is maintained in the first folder in the sub-series. The Miscellaneous Exhibits sub-series is arranged according to the original order of the exhibits. Generally speaking, the exhibits in this sub-series are not immediately identifiable as belonging to a specific legal case; the exceptions to this are the final three folders in the sub-series. The Freedom of Information Act Request materials are arranged numerically by number of record. The GPUN Deficient Character Materials sub-series consists of various notes, petitions, and other papers compiled by TMIA to further their case for revocation of GPUN's license to operate TMI-1. The Pleadings sub-series is arranged into volumes, generally by date. Due to their size, most volumes have been broken into two or more parts, with the first folder of each volume containing an inventory of the contents of that entire volume. There is also a complete inventory of the pleadings housed in the first folder of the sub-series; some items listed in the inventories are not present in the collection. The Research Materials sub-series is comprised of secondary sources with relevance to matters in which TMIA had some direct involvement with the largest portion of this sub-series consisting of materials relating to specific people. The Restart Materials sub-series contains papers on the TMI Restart Contention #5 and other restart related materials. The TMIA v. NRC sub-series is arranged by docket number and consists of various legal documents generated by TMIA, GPU, the NRC, and other intervenors in the appeal of previous NRC decisions; these matters were held before the United States Court of Appeals and the Supreme Court of the United States.

RG 2 – NUCLEAR REGULATORY COMMISSION

RG 2 DESCRIPTION

The Nuclear Regulatory Commission record group consists of the following 16 series: Board Notifications, Correspondence, Emergency Planning/Preparedness, Evaluation and Assessment Reports, Examination Reports, Inspection Reports, Investigations, Meetings, Memoranda, NUREGs, Operating Licenses, Policy and Rulemaking Issues, Press Releases and Announcements, Publications, Status Reports, and Miscellaneous. These materials comprise the general business of the Nuclear Regulatory Commission contained in this collection, absent the legal proceedings directed by the NRC that are housed in RG 3. Researchers should be aware, however, that both RG 2 and RG 3 are interrelated and materials discussed in one may also be referenced or further developed in the other; to that end, it will often be necessary to examine both record groups to get a more complete idea as to the complexity of any one issue. The bulk of this record group is reports authored or commissioned by the NRC with respect to both the day-to-day operation of the Three Mile Island Nuclear Power Station Units 1 and 2 and specific areas of concern at TMI-1 and TMI-2. The materials contained herein are not a comprehensive collection of the NRC papers on the Three Mile Island Unit-2 accident, but rather the most important and representative of those papers that are maintained in full by the NRC.

Descriptions of the organization and content of individual series are provided directly before the inventory of each series.

Series 2.2, Correspondence, is arranged into two sub-series, Letters Sent and Letters Received, and then chronologically within the sub-series. The Letters Sent are all from various members of the NRC and the Letters Received are from various senders, including collected correspondence from private citizens concerned with issues relating to Three Mile Island; also included among the Letters Received is correspondence from intervenors in the cases resulting from the accident at Three Mile Island Unit-2. Some of the correspondence under Letters Sent includes attachments of previous correspondence—often the letters that elicited a response—or other documents. In all cases, the top piece of correspondence in a packet is the one used to put the packet in chronological order.

2.2 Correspondence

2.2.1 Letters Sent

2.2.1.1	1978-1980
2.2.1.2	01/1981-03/1981

Series 2.3, Emergency Planning/Preparedness, is arranged in descending order of organization and consists primarily of supplements to the NRC Incident Response Plan for the NRC, the Region I office (located in King of Prussia, PA), and the Three Mile Island Program Office. Other NRC materials relating to Emergency Preparedness and Planning are located in Series 2.8 (Meetings) and Series 2.10 (NUREGs).

2.3 Emergency Planning/Preparedness

- 2.3.1 NRC Headquarters Incident Response Supplement - 07/12/1982
- 2.3.2 NRC Region I Incident Response Supplement
- 2.3.3 TMI Program Office Incident Response Supplement
- 2.3.4 TMI-1 Restart Emergency Preparedness Certification Items -
07/25/1983
- 2.3.5 NRC/Licensee Technical Information Flow During Emergencies -
08/31/1987

Series 2.4, Evaluation Reports, is arranged into three sub-series, Safety Evaluation Reports, Systematic Assessment of Licensee Performance Reports, and Miscellaneous. The sub-series are then arranged chronologically by date of report.

2.4 Evaluation and Assessment Reports

2.4.1 Safety Evaluation Reports

- 2.4.1.1 Overpressure Mitigating System - 10/1979
- 2.4.1.2 Evaluation of the Atypical Weld Metal - 12/12/1979

- 2.4.1.3 for Items Contained in Enclosure 1 to NUREG-0737 - 04/21/1981
- 2.4.1.4 for Items Contained in NUREG-0694 - 04/22/1981
- 2.4.1.5 Revision to Appendices B & C of TMI-1 Equipment Qualification Safety Evaluation - 04/23/1981

- 2.4.1.23 Licensed Operator Requalification Program - 10/19/1984
- 2.4.1.24 Pump & Valve Inservice Testing (1st Ten Year Interval) - 10/23/1984
- 2.4.1.25 Containment Purge & Vent (MPA B-24) - 03/25/1985
- 2.4.1.26 Environmental Qualification of Electrical Equipment - 04/09/1985
- 2.4.1.27 1984 TMI-1 Steam Generator Tube Indications - 04/17/1985
- 2.4.1.28 Post-Trip Review (Program Description and Procedure) - 05/31/1985
- 2.4.1.29 Small Break LOCA Evaluation Model (CRAFT2) - 07/12/1985
- 2.4.1.30 Justification for Raising Setpoint for Reactor Trip on High Pressure; Basis for Raising Arming Threshold for Anticipatory Trip on Turbine Trip - 05/27/1986
- 2.4.1.31 Data and Information Capability - 06/12/1986
- 2.4.1.32 NUREG-0737 Item III.D.3.4 (TMI-1 Control Room Habitability) - 08/14/1986
- 2.4.1.33 Pump & Valve Inservice Testing (2nd Ten Year Interval) - 10/03/1986
- 2.4.1.34 Use of Fracture Mechanics Methods to Justify Once-Through Steam Generator (OTSG) Tube Plugging Criteria - 12/23/1986
- 2.4.1.35 Pump & Valve Inservice Testing (2nd Ten Year Interval) - 02/1987
- 2.4.1.36 Relief from Certain Requirements of Section XI of the ASME Code -

- 03/20/1987
- 2.4.1.37 Seismic Adequacy of Control Room Panels & Instruments - 06/23/1987
 - 2.4.1.38 Implementation of TMI Action Item II.K.3.5 (Automatic Trip of Reactor Coolant Pumps) - 08/11/1987
 - 2.4.1.39 Equipment Classification (RTS Components) - 08/12/1987
 - 2.4.1.40 Conformance to Regulatory Guide 1.97 - 08/24/1987
 - 2.4.1.41 Criticality Safety Analysis of Reactor Vessel - 07/06/1993
 - 2.4.1.42 Post-Defueling Monitored Storage (PDMS) Requirements - 11/16/1993

2.4.2 Systematic Assessment of Licensee Performance (SALP) Reports (TMI-1)

- 2.4.2.1 Oct. 1982 through Jan. 1984 - 04/02/1984
- 2.4.2.2 Feb. 1984 through Jan. 1985 - 03/13/1985
- 2.4.2.3 Sep. 16, 1985 through Jan. 10, 1986 - 01/24/1986
- 2.4.2.4 Sep. 16, 1985 through Apr. 30, 1986 - 06/06/1986
- 2.4.2.5 May 1986 through Oct. 1986 - 12/03/1986
- 2.4.2.6 Nov. 1986 through Oct. 1987 - 02/11/1988

- 2.4.2.11 Aug. 1, 1993 through Feb. 18, 1995 - 03/07/1995

2.4.3 Miscellaneous

- 2.4.3.1 Core Damage Assessment for TMI-2 - 04/13/1979
- 2.4.3.2 Guidelines for Evaluation Qualification of Class IE Electrical Equipment in Operating Reactors - 11/13/1979
- 2.4.3.3 Evaluation of the Cleanup Activities at TMI - 02/28/1980
- 2.4.3.4 Health Physics Evaluation - 11/26/1980
- 2.4.3.5 Environmental Impact Appraisal...Evaluating the Proposed Restart of TMI-1 - 03/30/1981
- 2.4.3.6 Technical Evaluation Report: Seismic Qualification of Auxiliary Feedwater System - 10/29/1982
- 2.4.3.7 Assessment of Licensee Readiness for Reactor Criticality - 10/03/1985
- 2.4.3.8 Assessment of Licensee Readiness to Proceed Beyond 5% Power Level - 10/10/1985
- 2.4.3.9 Assessment of Licensee Readiness to Proceed Beyond 40% Power Level - 10/24/1985
- 2.4.3.10 Environmental Assessment & Finding of No Significant Impact - 01/21/1986
- 2.4.3.11 Licensee Event Report Evaluation for TMI-1 - 02/18/1987

Series 2.5, Examination Reports, is arranged into three sub-series, TMI-1 Examination Reports, TMI-1 Reactor Operator Licensing Examinations, and TMI-1 Requalification Program Evaluations. Materials within each sub-series are arranged chronologically.

2.5 Examination Reports

2.5.1 TMI-1 Examination Reports

- 2.5.1.1 Examination Results - 11/30/1981
- 2.5.1.2 Restart Examinations Administered in Oct. 1981 - 12/08/1981
- 2.5.1.3 Examination Report 85-31 - 01/30/1986
- 2.5.1.4 Examination Report 86-07 - 05/12/1986
- 2.5.1.5 Examination Report 87-03 - 04/20/1987
- 2.5.1.6 Examination Report 87-12 - 07/21/1987
- 2.5.1.7 Examination Report 87-25 - 02/10/1988
- 2.5.1.8 Examination Report 89-19 - 09/18/1989
- 2.5.1.9 Examination Report 92-03 - 03/06/1992
- 2.5.1.10 Examination Report 93-02 - 10/07/1993

2.5.2 TMI-1 Reactor Operator Licensing Examinations

- 2.5.2.1 Reactor Operator & Senior Reactor Operator - 09/22/1989
- 2.5.2.2 TMI-1 Senior Reactor Operator Licensing Exams - 04/22/1992

2.5.3 TMI-1 Requalification Program Evaluations

- 2.5.3.1 Evaluation - 08/15/1989
- 2.5.3.2 Evaluation - 10/07/1992
- 2.5.3.3 Evaluation Report 93-02 - 02/26/1993

Series 2.6, Inspection Reports, is arranged into the following four sub-series: TMI-1 (50-289), TMI-2 (50-320), Combined TMI-1 & TMI-2 (50-289 & 50-320), Pennsylvania Low-level Radioactive Waste Shipments, and Miscellaneous. The inspection reports under TMI-1, TMI-2, and Combined include actual reports as well as subsequent documentation created in reference to the original inspection report.

Series 2.7, Investigations, is arranged into four sub-series, Keaten Investigation, Parks Allegations Regarding TMI Unit-2 Investigation, Possible Falsification of Leak Rate Data Investigation, and Miscellaneous. The materials are then arranged chronologically with brief descriptions of the reports in question provided whenever possible. The series of exhibits housed in sub-series 2.7.2 is believed to have been compiled in support of the Parks Allegations Investigation for evidentiary purposes. The runs of exhibits provided in support of the investigations represented here are incomplete.

2.7 Investigations

2.7.1 Keaten Investigation

- 2.7.1.1 Report of Investigation
- 2.7.1.2 Exhibits 1-3
- 2.7.1.3 Exhibit 4
- 2.7.1.4 Exhibit 5

- 2.7.1.5 Exhibit 6
- 2.7.1.6 Exhibit 16
- 2.7.1.7 Exhibit 17

- 2.7.3.22 Other Materials

2.7.4 Miscellaneous

- 2.7.4.1 IE/TMI Radiological Investigation Team Recommendations for “Long-Term” TMI Improvements and/or Other Power Reactor Sites - 09/28/1979
- 2.7.4.2 IE/TMI-2 Investigation Operations Team Recommendations - 10/16/1979
- 2.7.4.3 Completion of IE Investigation of Information Flow at TMI During March 1979 Accident - 04/01/1980
- 2.7.4.4 IE Inspectors’ Alleged Failure to Report Information RE March 28, 1979, Hydrogen Explosion at TMI-2 - 11/06/1980, 01/07/1981
- 2.7.4.5 Investigations into Information Flow Concerning the TMI Accident - 02/19/1981
- 2.7.4.6 Report of Investigation - 08/11/1981
- 2.7.4.7 Board Questions Regarding the Investigation of Cheating at TMI - 08/28/1981
- 2.7.4.8 TMI-1 Investigation of Alleged Cheating on Operator Qualifying Examinations - 09/17/1981
- 2.7.4.9 TMI-1 Possible Falsification of Reactor Coolant System Inventory Leak Rate Tests - 04/16/1984
- 2.7.4.10 Alleged Improper Influence by the GPU Upper Management Structure Causing Changes to Be Made to Their Internal TMI-2 Accident Review Report to Reflect a More Favorable Management Viewpoint - 05/18/1984
- 2.7.4.11 Release of Office of Inspector and Auditor Documents to Congress - 11/01/1984

Series 2.8, Meetings, is divided into three sub-series, Reports, Summaries, and Miscellaneous, and then arranged in chronological order with brief descriptions of the meetings in question provided whenever possible. The materials in this series consist, generally, of summaries of and reports on NRC meetings and other materials related to these meetings. Materials from other gatherings akin to meetings (e.g. conferences, workshops) have also been included.

2.8 Meetings2.8.1 Reports

- 2.8.1.1 Meeting Report 50-289/84-78 - 02/23/1984
- 2.8.1.2 Meeting Held June 19, 1987 - 08/24/1987
- 2.8.1.3 Enforcement Conference Held Nov. 2 & Dec. 4, 1989 - 01/10/1990
- 2.8.1.4 Enforcement Conference Held Aug. 24, 1983 - 09/03/1993

2.8.2 Summaries

- 2.8.2.1 Meeting with GPU/Met-Ed on Jan. 16, 1981 Concerning Proposed Modifications to the Commissions’ Aug. 9, 1979 Order and Restart Requirements - 01/28/1981
- 2.8.2.2 Meeting with Electric Power Research Institute, Westinghouse Corp.,

- Duke Power Co., and the Virginia Electric & Power Co. Regarding
the Testing of Block Valves - 04/09/1981
- 2.8.2.3 Appendix R Fire Protection Meeting with GPU Held Nov. 5, 1982 - 11/17/1982
 - 2.8.2.4 Morning Meeting with GPUN on Dec. 16, 1983 - 12/22/1983
 - 2.8.2.5 Afternoon Meeting with GPUN on Dec. 16, 1983 - 12/22/1983
 - 2.8.2.6 Advisory Panel for the Decontamination of TMI-2 Meeting Held on Nov. 15, 1984 - 11/29/1984 (*See 3.9.2.1 for meeting transcript)
 - 2.8.2.7 Meeting with GPUN to Discuss NUREG-0737 Item II.F.2 (Inadequate Core Cooling) - 10/09/1986
 - 2.8.2.8 Meeting with B&W Owners Group Technical Specifications Committee Held Dec. 10, 1985 - 01/08/1986
 - 2.8.2.9 NRC/Licensee Meeting Held Apr. 28, 1989 - 05/19/1989
 - 2.8.2.10 Environmental Qualification Enforcement Conference Held Aug. 24, 1988 - 09/22/1988
 - 2.8.2.11 TMI-1 Reload Meeting Summaries - 09/30/1986

2.8.3 Miscellaneous

- 2.8.3.1 Commission Briefing on TMI-1 Status - 06/15/1983
- 2.8.3.2 NRC Meeting Agenda - 06/29/1982
- 2.8.3.3 Meeting with GPU TMI-2 Safety Advisory Board - 09/06/1983
- 2.8.3.4 Notes from Bob Pollard from his Meeting with NRC - 12/16/1983
- 2.8.3.5 Staff Actions from the Aug. 15, 1984 Commission Meeting on TMI-1 - 08/31/1984
- 2.8.3.6 Materials for Advisory Panel for the Decontamination of TMI-2 Meeting Held on July 14, 1988
- 2.8.3.7 Motor-Operated Valve Meeting - 11/03/1994

Series 2.9, Memoranda, is arranged chronologically. As with Series 2.2, Correspondence, the memoranda contained in this series often include previous memoranda and correspondence, as well as attached reports referenced in the original memoranda. In all cases, the date of the top document is the one used to place a packet in chronological order, though it will most likely be of benefit to read through all attached documents to get the clearest picture of the issues discussed therein.

2.9 Memoranda

- 2.9.1 1978-1979
- 2.9.2 1980
- 2.9.3 1981
- 2.9.4 1982
- 2.9.5 1983
- 2.9.6 1984
- 2.9.7 1985-1988

Series 2.10, NUREGs, is arranged numerically by the number assigned to each report; dates are included whenever possible. The NUREGs are a series of publications produced by the NRC that include reports and brochures on regulatory decisions, results of research, results of incident investigations, and other technical and administrative information. The NUREG numbering system is assigned by the NRC according to the following specifications: 1) NUREG-(nnnn) are publications prepared by NRC staff, 2) NUREG/BR-(nnnn) are brochures prepared by NRC staff, 3) NUREG/CP-(nnnn) are conference proceedings prepared by either the NRC staff or a NRC contractor, and 4) NUREG/CR-(nnnn) are publications prepared by NRC contractors.

2.10 NUREGs

Series 2.11, Operating Licenses, is divided into four sub-series, Amendments, Licenses, Notices of Consideration of Amendment to TMI-1 Operating License, and Notices of Applications and Amendments to TMI-1 Operating License. Sub-Series 2.11.1, Amendments to TMI-1..., is arranged by amendment number, whereas the other sub-series are arranged chronologically. Sub-Series 2.11.4, Notices of Applications and Amendments..., contains sections of the *Federal Register* dealing with these notices.

2.11 Operating Licenses

2.11.1 Amendments to TMI-1 Facility Operating License

Series 2.12, Policy and Rulemaking Issues, is arranged into five sub-series, Information, Commission Meeting, Commissioner Action, Notation Vote, and Rulemaking Issue, and then chronologically.

2.12 Policy and Rulemaking Issues

2.12.1 Commission Meeting

- 2.12.1.1 TMI-1 Director's Decision on the UCS 10 CFR 2.206 Petition on the Emergency Feedwater System; SECY-84-378 - 09/26/1984

2.12.2 Commissioner Action

- 2.12.2.1 Proposed Plan for Developing a Safety Goal - 08/12/1980

2.12.3 Information

- 2.12.3.1 Single Failure Criterion - 08/17/1977
- 2.12.3.2 TMI-2 Containment Building Purge; SECY-80-132D - 05/30/1980
- 2.12.3.3 Pressurized Thermal Shock; SECY-81-286 - 05/04/1981

- 2.12.3.4 NRC-DOE Memorandum of Understanding Concerning the Removal & Disposition of Solid Nuclear Wastes from Cleanup of TMI-2; SECY-81-446 - 07/23/1981
- 2.12.3.5 Pressurized Thermal Shock of Pressure Vessels; SECY-81-286A - 09/09/1981
- 2.12.3.6 GPUN's TMI-2 Recovery Program Estimate; SECY-83-140 - 04/15/1983
- 2.12.3.7 TMI-1 Environmental Qualification of Equipment per CLI-84-11; SECY-85-184 - 05/24/1985
- 2.12.3.8 TMI-1 Restart Certification Status; SECY-85-192 - 05/29/1985
- 2.12.3.9 Annual Status Report on Implementation of the Commission Policy Statement on Training and Qualification; SECY-86-119 - 04/18/1986

2.12.4 Notation Vote

- 2.12.4.1 TMI-1 Restart Certification; SECY-84-237 - 06/14/1984

2.12.5 Rulemaking Issue

- 2.12.5.1 Status of Environmental Qualifications of Electrical Equipment; SECY-82-409 - 10/08/1982

Series 2.13, Press Releases, is arranged into four sub-series, Information Notices and Bulletins, NRC Office of Public Affairs Releases, NRC Region I Office of Public Affairs Releases, and Speeches and Statements. The materials in each sub-series are arranged chronologically.

2.13 Press Releases and Announcements

2.13.1 Information Notices and Bulletins

- 2.13.1.1 1980-1988

2.13.2 NRC Office of Public Affairs Releases

- 2.13.2.1 1979
- 2.13.2.2 1981
- 2.13.2.3 1982

2.13.3 NRC Region I Office of Public Affairs Releases

- 2.13.3.1 1979-1980
- 2.13.3.2 1981
- 2.13.3.3 1982
- 2.13.3.4 1983-1994

2.13.4 Speeches and Statements

- 2.13.4.1 Speeches - 1980-1981
- 2.13.4.2 Statements & Remarks - 1978-1983

Series 2.14, Publications, is arranged into four sub-series, Federal Register, Inspection and Enforcement Manual, Rules and Regulations (10 CFR), and Regulatory Guide. Each of these sub-series is arranged according to the original organization scheme created for the publication by the NRC. The Federal Register sub-series is arranged chronologically. The Inspection and Enforcement Manual sub-series is arranged according to a unique numbering system for chapters and topics. The Rules and Regulations sub-series is arranged by the “Part” number assigned to the document. The Regulatory Guide sub-series is arranged according to guide number which is comprised of the division number followed by a sequential number in that division (e.g. 1.7, 8.13); division 1 corresponds to Power Reactors, division 4 corresponds to Environmental and Siting, and division 8 corresponds to Occupation Health. In all cases, descriptions of the particular document are given first. The NRC website maintains comprehensive files of both Rules and Regulations (<http://www.nrc.gov/reading-rm/doc-collections/cfr/>) and the Regulatory Guide (<http://www.nrc.gov/reading-rm/doc-collections/reg-guides/>).

2.14 Publications

2.14.1 Federal Register

- 2.14.1.1 Three Mile Island; Preservation of Records - 05/29/1979
- 2.14.1.2 NRC Proposed Rulemaking Action on 10 CFR Part 20 - 03/20/1980
- 2.14.1.3 Emergency Planning; Final Regulations - 08/19/1980
- 2.14.1.4 Energy Conservation Program for Consumer Products - 04/02/1982
- 2.14.1.5 Annual Fee for Power Operating Licenses and Conforming Amendment; Final Rule - 09/18/1986
- 2.14.1.6 Evaluation of Agreement State Radiation Control Programs; Proposed General Statement of Policy - 11/13/1986
- 2.14.1.7 Revision of Fee Schedules; Proposed Rule - 06/27/1988
- 2.14.1.8 Leak-Before-Break Technology; Public Comment Period Extended - 07/13/1988
- 2.14.1.9 Revision of Fee Schedules; Final Rule - 12/29/1988
- 2.14.1.10 GPUN; Issuance of Environmental Assessment and Finding of No Significant Impact - 01/13/1992

2.14.3 Rules and Regulations (10 CFR)

- 2.14.3.1 Rules of Practice for Domestic Licensing Procedures (Part 2)
- 2.14.3.2 Advisory Committees (Part 7)
- 2.14.3.3 Environmental Qualification of Electric Equipment for Nuclear Power Plants (Part 50.49)
- 2.14.3.4 Reactor Site Criteria (Part 100)
- 2.14.3.5 Financial Protection Requirements & Indemnity Agreements (Part 140)

2.14.4 Regulatory Guide

- 2.14.4.1 Division 1 Table of Contents
- 2.14.4.2 Control of Combustible Gas Concentrations in Containment Following a Loss-of-Coolant Accident (1.7)
- 2.14.4.3 Personnel Selection and Training (1.8)
- 2.14.4.4 Measuring, Evaluating, and Reporting Radioactivity in Solid Wastes and Releases of Radioactive Materials in Liquid and Gaseous Effluents from Light-Water-Cooled Nuclear Power Plants (1.21)
- 2.14.4.5 Seismic Design Classification (1.29)
- 2.14.4.6 Second Proposed Revision to Quality Assurance Program Requirements (Operation) (1.33)
- 2.14.4.7 Bypassed and Inoperable Status Indication for Nuclear Power Plant Safety Systems (1.47)
- 2.14.4.8 Design, Testing, and Maintenance Criteria for Post Accident Engineered-Safety-Feature Atmosphere Cleanup System Air Filtration and Adsorption Units of Light-Water-Cooled Nuclear Power Plants (1.52)
- 2.14.4.9 Physical Independence of Electric Systems (1.75)
- 2.14.4.10 Qualification of Class IE Equipment for Nuclear Power Plants (1.89)
- 2.14.4.11 Instrumentation for Light-Water-Cooled Nuclear Power Plants to Assess Plant Conditions During and Following an Accident (1.97)
- 2.14.4.12 Design, Testing, and Maintenance Criteria for Normal Ventilation Exhaust System Air Filtration and Adsorption Units for Light-Water-Cooled Nuclear Power Plants (1.140)
- 2.14.4.13 Cost-Benefit Analysis for Radwaste Systems for Light-Water-Cooled Nuclear Power Reactors (1.110)
- 2.14.4.14 Programs for Monitoring Radioactivity in the Environs of Nuclear Power Plants (4.1)
- 2.14.4.15 Performance, Testing, and Procedural Specifications for Thermoluminescence Dosimetry: Environmental Applications (4.13)
- 2.14.4.16 Instruction Concerning Prenatal Radiation Exposure (8.13)

Series 2.15, Status Reports, is arranged into four sub-series, TMI Program Office Weekly Status Reports, TMI-1 Status Reports, TMI-2 Cleanup Project Directorate Weekly Status Reports, and TMI Status Reports. The materials within each sub-series are arranged chronologically.

2.15 Status Reports

2.15.1 TMI Program Office Weekly Status Reports

- 2.15.1.1 1980-1982
- 2.15.1.2 1983

RG 3 – NRC DIRECTED LEGAL PROCEEDINGS

RG 3 DESCRIPTION

The NRC Directed Legal Proceedings record group consists of the following twenty-four series: Affidavits, Appeals, Briefs, Certificates of Service, Contentions, Decisions, Depositions & Testimonies, Findings of Fact & Conclusions of Law, Hearing and Meeting Transcripts, Interrogatories, Interviews, Memoranda, Motions, Notices, Notifications, Objections, Orders, Petitions, Requests, Statements, Stipulations, Subpoenas, Trial Plans, and Miscellaneous. The materials in each series are pertinent to the cases In the Matter of Metropolitan Edison Company (Met-Ed) or In the Matter of GPU Nuclear Co. (GPUN), both held before the Atomic Safety and Licensing Board and/or the Atomic Safety and Licensing Appeal Board – the adjudicatory arm of the Nuclear Regulatory Commission. The series are arranged in the manner most appropriate for ease-of-access and a description of their organization is provided before each series inventory. With few exceptions, these materials are in reference to litigation regarding Three Mile Island Unit-1 (Docket No. 50-289) and Three Mile Island Unit-2 (Docket No. 50-320), including, but not limited to, the TMI-1 restart and management and the TMI-2 cleanup. When the word “Licensee” is used in reference to legal proceedings, it can be referring to Met-Ed, GPUN, or both.

RG 3 INVENTORY

RG 3 – NRC DIRECTED LEGAL PROCEEDINGS

Series 3.1, Affidavits, is arranged chronologically by date of the affidavit and then alphabetically by surname. One folder, Affidavits of Service, is located at the end of the series.

3.1 Affidavits

- 3.1.1 Oran K. Henderson - 02/19/1980
- 3.1.2 Nicholas C. Kazanas - 03/13/1980
- 3.1.3 Thomas L. Hombach - 03/14/1980
- 3.1.4 R. E. Gehman - 03/17/1980

Series 3.7, Depositions and Testimonies, is arranged chronologically by date of deposition or testimony and then alphabetically by surname. In the case of multiple people being a respondent in a single deposition or testimony, the material is arranged by the name of the first person entered on the document. In the case of there not being a named individual as a respondent (e.g. 3.7.156-3.7.161), the materials are arranged as if the letter assigned to them were their last name. Folders marked with an asterisk (*) contain both a testimony and a summary of the testimony prepared by TMIA.

Series 3.17, Orders, is arranged into two sub-series by type, orders and responses. The orders are then arranged chronologically by date of issue and the responses are arranged by the party that created each response. In some cases, the responses are directed to previous responses of a third party to an order, but have been grouped according to the primary creator for sake of consistency. Legal documents identified as both memoranda and orders are filed in this series as orders.

3.17 Orders

RG 4 – GENERAL PUBLIC UTILITIES

RG 4 DESCRIPTION

The General Public Utilities record group consists of the following ten series: Correspondence, Financial Papers, General Operations/Maintenance, Legal Papers, Newsletters, Post-Defueling Monitored Storage, Press Releases, Public Relations Materials, Reports, and Miscellaneous. The materials in this record group were either generated by General Public Utilities Corporation or one of its subsidiary companies, among which Metropolitan Edison Company is the most commonly represented.

At the time of the Three Mile Island Unit 2 Accident in March of 1979, General Public Utilities Corporation (GPU) was an electric utility holding company comprised of the following three operating companies: Jersey Central Power & Light Company (JCP&L), Pennsylvania Electric Company (Penelec), and Metropolitan Edison Company (Met-Ed). JCP&L operated wholly in New Jersey, and Penelec and Met-Ed operated in Pennsylvania at the time of the accident. The three operating companies were in joint-ownership of Three Mile Island Units 1 and 2 at the time of the accident (Met-Ed owned 50% of the plant and JCP&L and Penelec owned 25% each) with Met-Ed being the direct operator of both plants.

The casual observer may have certain initial difficulties following the corporate structure of GPU as it pertains to the Three Mile Island accident. Met-Ed was ultimately the company sued by the NRC for a variety of reasons related to the March 28, 1979 accident, but that does not preclude the inclusion of documentation from GPU or the other holding companies among the papers in this record group. Also, the license for operation of Three Mile Island Units 1 and 2 was divested from Metropolitan Edison Company and vested in General Public Utilities Nuclear Corporation (GPUN) – a newly created subsidiary of GPU – in January, 1982 as a means to disassociate the current actions of the company from those at the time of the accident. For a time both the GPU and Met-Ed logo appeared on official correspondence and reports, but that was eventually replaced by the GPU Nuclear letterhead in later documents. Nevertheless, due to the fact that the original court cases against the company were filed against Metropolitan Edison Company, references to Met-Ed persist when dealing with both legal matters and matters regarding the accident itself. Legal matters begun after the change in licensee list General Public Utilities Nuclear Corp. as the defendant.

On November 6, 2001, FirstEnergy of Akron Ohio closed its merger with General Public Utilities Corp., which ceased to exist as an electric utility holding company. Since then, JCP&L, Penelec, and Met-Ed have been subsidiary electric utility operating companies of FirstEnergy. TMI Unit 2, now decommissioned and in Post-Defueling Monitored Storage, is owned by FirstEnergy but maintained by Exelon, the owner and operator of TMI Unit 1.

Descriptions of the organization and content of individual series is provided directly before the inventory of each series.

RG 4 INVENTORY

RG 4 – GENERAL PUBLIC UTILITIES

Series 4.1, Correspondence, is arranged into four sub-series, General Public Utilities Corporation; General Public Utilities Nuclear Corporation; Metropolitan Edison Company; and Shaw, Pittman, Potts and Trowbridge (the attorneys for Met-Ed) The letters within each sub-series are arranged chronologically; the letters sent and received are interfiled.

4.1 Correspondence

Series 4.6, Post-Defueling Monitored Storage, is arranged into two sub-series, Safety Analysis Report and Miscellaneous. The Safety Analysis Report is divided into folders sequentially by chapters, appendices, supplements, and amendments. The materials in Miscellaneous are arranged chronologically and consist of reports and other documents produced in compliance with the requirements and commitments set forth for post-defueling monitored storage.

4.6 Post-Defueling Monitored Storage4.6.1 Safety Analysis Report

- 4.6.1.1 List of Effective Pages
- 4.6.1.2 Chapter 1: Introduction and Description of Plant

- 4.6.1.3 Appendix 1A: Potential Reductions in Occupational Exposure Due to PDMS
- 4.6.1.4 Chapter 2: Site Characteristics
- 4.6.1.5 Chapter 3: Design Criteria - Structures, Systems, & Components
- 4.6.1.6 Chapter 4: Fuel
- 4.6.1.7 Appendix 4A: Defueling Equipment
- 4.6.1.8 Chapter 5: PDMS Radiological Conditions
- 4.6.1.9 Chapter 6: Deactivated Systems & Facilities
- 4.6.1.10 Chapter 7: Operational Systems & Facilities
- 4.6.1.11 Chapter 8: Routine and Unanticipated Releases
- 4.6.1.12 Chapter 9: Technical Specifications for PDMS

RG 5 – GROUPS AND ORGANIZATIONS

RG 5 DESCRIPTION

The Groups and Organizations record group consists of the following twenty-five series: Atomic Energy Commission; Babcock & Wilcox Co.; Browning-Ferris Industries, Inc.; Environmental Protection Agency; Federal Emergency Management Agency; Federal Energy Regulatory Commission; Institute of Electrical and Electronics Engineers, Inc.; Louisiana Power & Light Co.; Newberry Township Three Mile Island Steering Committee; Nuclear Information and Resource Service; Organization for Economic Cooperation and Development/Nuclear Energy Agency; Pennsylvania Department of Environmental Resources; Pennsylvania General Assembly; Pennsylvania Governor's Energy Council; Pennsylvania Public Utilities Commission; President's Commission on the Accident at Three Mile Island; Public Citizen; Susquehanna Valley Alliance; Three Mile Island Public Health Fund; Union of Concerned Scientists; United States Department of Energy; United States House of Representatives; United States Senate; US Ecology-Appalachia, Inc.; and Miscellaneous. The series are arranged alphabetically and descriptions of the organization and content of individual series are provided directly before the inventory of each series.

RG 5 INVENTORY

RG 5 – GROUPS AND ORGANIZATIONS

Series 5.1, Atomic Energy Commission, is arranged alphabetically by category of document.

The Atomic Energy Commission (AEC) was a federal agency created in 1946 to manage the development, use, and control of nuclear energy for military and civilian applications. The AEC was abolished by the Energy Reorganization Act of 1974 and succeeded by the Energy Research and Development Administration (now part of the U. S. Department of Energy) and the U. S. Nuclear Regulatory Commission.

5.1 Atomic Energy Commission

- 5.1.1 Legal Papers - Docket No. 50-329, 50-330 (In the Matter of Consumers Power Company (Midland Plant, Units 1 & 2), Decision ALAB-123 - undated
- 5.1.2 Reports - Pressure-Suppression Containments - 09/20/1972
- 5.1.3 Miscellaneous - List of Letters to AEC from Met-Ed - undated

Series 5.2, Babcock and Wilcox Co., is arranged alphabetically by category of document. Folders are then arranged chronologically with subsequent revisions and additions of documents housed directly following the primary document.

Incorporated in 1881 as a manufacturer of water tube steam boilers that were integral components of steam power plants, Babcock and Wilcox Co. is the company that designed and constructed the pressurized water reactors (the nuclear component of the electricity generating system) and steam generators in use at Three Mile Island Nuclear Power Station Units 1 and 2.

5.2 Babcock and Wilcox Co.

- 5.2.1 Correspondence - 1982
- 5.2.2 Legal Papers - Affidavit of James H. Taylor
- 5.2.3 Legal Papers - Civil Action No. 85-3035
- 5.2.4 Newsletters - *Babcock & Wilcox Nuclear Newsletter* - 07/01/1980

- 5.2.30 Miscellaneous - Service and Product Fliers

Series 5.3, Browning-Ferris Industries, Inc., is arranged by category of document and then chronologically.

Browning-Ferris Industries, Inc. (BFI), through its subsidiaries and affiliates, provides waste services. The company collects, transports, treats and/or processes, recycles and disposes of commercial, residential and municipal solid waste and industrial wastes. The company also provides medical waste services, resource recovery facilities, portable restroom services and sweeping operations. Purchased in 1999, BFI is now a subsidiary of Allied Waste Industries, Inc., based in Scottsdale, Arizona.

Series 5.4, Environmental Protection Agency, is arranged by date of report.

The Environmental Protection Agency (EPA) leads the nation's environmental science, research, education and assessment efforts. EPA's mission is to protect human health and to safeguard the natural environment – air, water, and land – upon which life depends.

5.4 Environmental Protection Agency

- 5.4.1 Correspondence - 06/05/1987
- 5.4.2 Reports - Long-term Environmental Radiation Surveillance Plan for Three Mile Island, Update - 03/1981
- 5.4.3 Reports - Long-term Environmental Radiation Surveillance Plan for Three Mile Island, Update - 07/1984
- 5.4.4 Reports - Environmental Monitoring at TMI: A New Direction - 01/1988
- 5.4.5 Miscellaneous

Series 5.5, Federal Emergency Management Agency, is arranged alphabetically by category of document and then chronologically.

The Federal Emergency Management Agency (FEMA) - a former independent agency that became part of the new Department of Homeland Security in March 2003 - is tasked with responding to, planning for, recovering from and mitigating against disasters.

5.5 Federal Emergency Management Agency

- 5.5.1 Memoranda - Guidance Memorandum #18; FEMA Actions to Qualify Alerting and Notification Systems Against NUREG-0654/FEMA-REP-1 - 05/21/1981
- 5.5.2 Memoranda - Interim Findings and Determination Relating to the Status of State and Local Emergency Preparedness around TMI Fixed Nuclear Facility (and 3 Attachments) - 06/16/1981
- 5.5.3 Reports - Review of Pennsylvania REP Planning Site - Specific to TMI - 01/06/1981

Series 5.7, Institute of Electrical and Electronics Engineers, Inc., is arranged by date of report.

The IEEE (Eye-triple-E) is a non-profit, technical professional association of more than 360,000 individual members in approximately 175 countries. Through its members, the IEEE is a leading authority in technical areas ranging from computer engineering, biomedical technology and telecommunications, to electric power, aerospace and consumer electronics, among others.

Series 5.8, Louisiana Power & Light Co. (LP&L), is arranged by category of document and then number of exhibit. The last folder in the series contains an NRC memorandum and presentation materials that provide background information for the matter to which the exhibits apply.

LP&L was the subsidiary of Middle South Utilities, Inc. (MSU), an electric utility holding company much like General Public Utilities, in charge of the Waterford 3 nuclear power reactor in southern Louisiana (approximately twenty miles west of New Orleans). MSU officially changed its name to Entergy Corp. in 1989 and operation of Waterford 3 has since been invested in Entergy Operations, Inc., a subsidiary created to streamline the management of Entergy's various nuclear power facilities.

Series 5.9, Newberry Township Three Mile Island Steering Committee, is arranged alphabetically by folder content. The questionnaires are housed in numerical order at the end of the series. The final folder in the series contains two incomplete questionnaires. Questionnaires are housed one per folder. If you do not know the specific number of the questionnaire(s) you would like to see, please examine folder 5.8.6. The numbers with green check marks next to them are those questionnaires included in the series. This folder also contains the biographical information that corresponds to the numbered questionnaires.

The Newberry Township TMI Steering Committee was formed by the Newberry Township Supervisors on April 3, 1979 by unanimous decision at an official meeting. The Health Committee of the Steering Committee contacted Raymond Goldstein to study the social/psychological effects of the accident and the long-range effects on residents living in close proximity to a nuclear reactor operating at normal capacity. Ray Goldstein assisted the community by developing a level of interest questionnaire, training volunteers and collating data. For more information on the Newberry Township Study please see the TMI-PIRC Collection, box 3, folders 10 and 11.

Series 5.11, Organization for Economic Cooperation and Development / Nuclear Energy Agency, is arranged alphabetically by category of document. The materials listed under Conference are primarily papers presented at the Oct. 20-22, 1993 Achievements of the OECD Three Mile Island Vessel Investigation Project Conference held in Boston, MA under the auspices of the Nuclear Energy Agency and the Organization for Economic Cooperation and Development. The first folder listed under Conference contains the program for the presentations. Folders marked with an asterisk (*) contain both a paper and the presentation materials used at the conference.

The Organization for Economic Cooperation and Development (OECD) unites 30 member countries sharing a commitment to democratic government and the market economy. Best known for its publications and its statistics, its work covers economic and social issues from macroeconomics, to trade, education, development and science and innovation. OECD work on nuclear energy issues is carried out by the Nuclear Energy Agency. Based in Paris, France, the NEA's mission is to assist its member countries in maintaining and further developing, through international co-operation, the scientific, technological and legal bases required for the safe, environmentally friendly and economical use of nuclear energy for peaceful purposes. To achieve this, the NEA works as: a forum for sharing information and experience and promoting international co-operation, a center of excellence which helps member countries to pool and maintain their technical expertise, and a vehicle for facilitating policy analyses and developing consensus based on its technical work.

Series 5.12, Pennsylvania Department of Environmental Resources, is arranged alphabetically by category of document and then chronologically.

The Pennsylvania Department of Environmental Resources (now the Department of Environmental Protection and the Department of Conservation and Natural Resources) was the Pennsylvania state governmental agency that directly involved itself with the legal proceedings resulting from the TMI-2 accident. The PaDER, in addition to its role in the court cases against Met-Ed and GPU, also produced reports on issues related to the accident and its clean-up. The PaDER was especially involved with the siting proposals for a low-level radioactive waste disposal facility in Pennsylvania for the Appalachian States Compact (see the description for series 5.24 for more information).

Series 5.14, Pennsylvania Governor's Energy Council, is arranged by category of document and then chronologically.

The Pennsylvania Governor's Energy Council was formed in response to the oil embargo in 1974. The Energy Council was replaced in 1987 by the Pennsylvania Energy Office. Both the Energy Office and its predecessor were established to provide resources and information on energy and energy alternatives and were also responsible for monitoring supplies of petroleum products. When disbanded in 1995 by Governor Ridge, the responsibilities of the Energy Office were distributed to various other state agencies, including the Pennsylvania Emergency Management Agency, the Pennsylvania Department of Environmental Resources, and the Governor's Policy Office.

Series 5.15, Pennsylvania Public Utilities Commission, is arranged alphabetically by category of document and then chronologically. The majority of this series consists of legal papers from proceedings held before the Pa Public Utilities Commission. In the case of legal papers, the materials have first been grouped by docket number and then chronologically.

The Pennsylvania Public Utilities Commission (PaPUC) is charged with the responsibility of providing safe, reliable and reasonably priced electric, natural gas, water, telephone, and transportation service for Pennsylvania consumers by regulating public utilities and by serving as stewards of competition.

Series 5.16, President's Commission on the Accident at Three Mile Island, is arranged alphabetically by category of document and then chronologically.

The President's Commission on the Accident at Three Mile Island, also known as the Kemeny Commission, was established two weeks after the accident at TMI and was charged with conducting a comprehensive study and investigation into the accident. The scope of their investigation covered: a technical assessment of the events and their causes; an analysis of the role of the managing utility; an assessment of the emergency preparedness and response of the NRC and other federal, state, and local authorities; an assessment of the public's right to information concerning the events at TMI; and appropriate recommendations based upon the Commission's findings. The Commission's membership was comprised of professionals from various universities and organizations. Notable members of the Commission were: John Kemeny (Chair), president of Dartmouth College; Bruce Babbitt, governor of Arizona; Russell Peterson, president of the National Audubon Society; Cora B. Marrett, associate professor of sociology at the Univ. of Wisconsin-Madison; and Lloyd McBride, president of United Steelworkers of America.

Series 5.17, Public Citizen, is arranged by category of document and then chronologically. The majority of the materials in this series pertain to the Critical Mass Energy Project as administered by Public Citizen.

Public Citizen is a national, nonprofit consumer advocacy organization founded in 1971 to represent consumer interests in Congress, the executive branch, and the courts. The Critical Mass Energy Project (now known as the Critical Mass Energy and Environment Program) was established by Ralph Nader in 1974 to protect citizens and the environment from the dangers posed by nuclear power and sought policies that would lead to safe, affordable, and environmentally sustainable energy.

Series 5.18, Susquehanna Valley Alliance, is arranged alphabetically by category of document and then chronologically.

The Susquehanna Valley Alliance (SVA), now known as York Environmental Alliance (YEA), was formed shortly following the accident at Three Mile Island Unit 2 on March 28, 1979. The group membership was comprised of area citizens who were concerned about the psychological, physical, and economic ramifications that the accident and subsequent restart of the reactor would have on them and their families. SVA became one of the local grassroots organizations to take part in the legal proceedings held before the Nuclear Regulatory Commission.

Series 5.19, Three Mile Island Public Health Fund, is arranged alphabetically by category of document and then chronologically. The materials under legal papers are grouped together by type of legal document.

The Three Mile Island Public Health Fund was created in 1981 as a result of the settlement of a class-action lawsuit against GPU by residents within a 25-mile radius of the TMI reactors. The settlement provided for the establishment of a \$5 million Public Health Fund to finance research into public health questions that arise from the TMI accident and its aftermath and to address certain other subjects relating to future activities at the facility. Under its charter, the Fund had a

mandate to support research and make expenditures on five subjects: radiation monitoring; human cancer risk estimates due to exposure to low level ionizing radiation; assessments of the accident and its health effects; emergency planning at TMI; and public education and information. The Fund was established under the supervision of Sylvia H. Rambo, United States District Judge for the Middle District of Pennsylvania. The Fund was administered by the firm of David Berger, Attorneys-at-Law in Philadelphia, PA. Over the five year lifespan of the Fund, groups such as TMIA and SVA criticized the administration and disbursement of the \$5 million dollars (with the recapitalized interest, the value of the fund well exceeded \$5 million dollars in the end).

Series 5.20, Union of Concerned Scientists, is arranged alphabetically by category of document.

The Union of Concerned Scientists (UCS) was founded in 1969 by faculty members and students at the Massachusetts Institute of Technology who were concerned about the misuse of science and technology in society. Their statement called for the redirection of scientific research to pressing environmental and social problems. In 1979, UCS called for the shutdown of the Three Mile Island reactors (and 15 other nuclear power plants) because the Nuclear Regulatory Commission had severely understated the probability of an accident. Two months later, following the near meltdown of TMI-2, UCS provided crucial independent information to the media and public seeking to understand the accident and the risks to neighboring communities.

Series 5.21, U.S. Department of Energy, is arranged alphabetically by category of document and then chronologically.

The Department of Energy (DOE), activated on October 1, 1977, assumed the responsibilities of the Federal Energy Administration, the Energy Research and Development Administration, the Federal Power Commission, and parts and programs of several other agencies. The DOE provided the framework for a comprehensive and balanced national energy plan by coordinating and administering the energy functions of the federal government. The DOE undertook responsibility for long-term, high-risk research and development of energy technology, federal power marketing, energy conservation, the nuclear weapons program, energy regulatory programs, and a central energy data collection and analysis program.

Series 5.22, U.S. House of Representatives, is arranged alphabetically by category of document and then chronologically. The legal papers are grouped first by subcommittee, then by type of document, and finally arranged chronologically. The reports are arranged by subcommittee, then by serial number; reports without serial numbers are placed in folders chronologically following those reports with serial numbers. The majority of the materials in this series are testimonies, statements, and reports for the Subcommittee on Energy and the Environment of the Committee on Interior and Insular Affairs; there are also papers from the Subcommittee on Energy Conservation and Power of the Committee on Energy and Commerce, the Subcommittee on Energy Research and Production of the Committee on Science and Technology, the Subcommittee on Oversight and Investigations of the Committee on Interstate and Foreign Commerce, and the Subcommittee on Government Information, Justice, and Agriculture of the Committee on House Government Operations. (Some of these committees and subcommittees may currently be known under different titles, may have been merged with other committees and subcommittees, or may have been disbanded.) The U.S. House of Representatives' involvement with the aftermath of the accident at the TMI nuclear facility consisted primarily of hearings, legislation, and reports, and while the materials in this series do not represent the entire range of

involvement, they do serve as a good cross-section. Those members of the House from Pennsylvania were particularly involved in the TMI proceedings held before the various committees and subcommittees.

Series 5.24, US Ecology-Appalachia, consists of a single, multi-volume report prepared by US Ecology-Appalachia for the Commonwealth of Pennsylvania. The report that comprises the entirety of this series is the proposal for the development and operation of that disposal facility.

The Low-Level Radioactive Waste (LLRW) Policy Act, which was passed in 1980 and amended in 1985, gave states the responsibility of providing for the disposal of LLRW. To that end, the states entered into regional compacts. US Ecology-Appalachia, a subsidiary of American Ecology Corporation, was a corporation created for the sole purpose of creating a low-level radioactive waste disposal facility for Pennsylvania and, by extension, the Appalachian Compact - a group of states that consists of Delaware, Maryland, Pennsylvania, and West Virginia. Pennsylvania was designated the host state for the regional LLRW disposal facility, partly because of the large number of nuclear reactors present in the state. As of May 2004, the Appalachian States LLRW Commission has yet to complete the siting phase of its mandate.

Series 5.25, Miscellaneous, is arranged alphabetically by organization, group or company that is the primary creator of the materials. The Miscellaneous series contains papers from those groups whose materials in this collection are too few to warrant an individual series. If the only organizational materials for a particular group or organization are newsletters, they will be housed in record group 7, Mixed Media, under series 7.4, Serial Publications.

RG 6 – GEND REPORTS**RG 1 ARRANGEMENT AND DESCRIPTION**

The GEND Reports record group consists of the following 3 series: GEND, GEND-INF, and GEND-INF-TIO-QLR, each corresponding to a division in the numbering system applied to the documents by their creators. GEND itself stands for “General Public Utilities, Electric Power Research Institute, U. S. Nuclear Regulatory Commission, and U.S. Department of Energy,” the first letter of each of the organizations that played a role in the creation and/or publication of the document.

RG 6 INVENTORY**RG 6 – GEND REPORTS**

Series 6.1, GEND, is arranged sequentially.

6.1 GEND

- 6.1.1 GEND 006 “Color Photographs of the Three Mile Island Unit 2 Reactor Containment Building: Volume 1–Entries 1, 2, 3, 4, 6” - 10/1981
- 6.1.2 GEND 010 VOL.1 “In-Vessel Inspection Before Head Removal: TMI II Phase I (Conceptual Development)” - 08/1981
- 6.1.3 GEND 010 VOL.1 “In-Vessel Inspection Before Head Removal: TMI II Phase II (Tooling and Systems Design)” - 07/1981
- 6.1.4 GEND 010 VOL.1 “In-Vessel Inspection Before Head Removal: TMI II Phase I (Tooling and System Design and Verification)” - 09/1982
- 6.1.5 GEND 017 “Response of the SPND Measurement System to Temperature During the Three Miles Island Unit 2 Accident” - 12/1981
- 6.1.6 GEND 018 “Nondestructive Techniques for Assaying Fuel Debris in Piping at Three Mile Island Unit 2” - 11/1981

Series 6.2, GEND-INF, is arranged sequentially.

6.2 GEND-INF

- 6.2.1 GEND-INF 010 “HP-RT-211 Cable Analysis” - 09/1981
- 6.2.2 GEND-INF 017 Vol. VI “Field Measurements and Interpretation of TMI-2 Instrumentation: IC-10-dPT - 01/1982

RG 7 – MIXED MEDIA**RG 7 DESCRIPTION**

The Mixed Media record group consists of the following 7 series: Newspaper Clippings (Originals); Newspaper Clippings (Copies); Newspapers (Complete Pages/Sections); Serial Publications, Printed Speeches, Reports, Excerpts, etc.; Television Program Transcripts; and Miscellaneous. These materials, the newspaper clippings especially, cover a variety of topics related to nuclear energy, generally, and, specifically, the accident at TMI-2, its cleanup, and the continued operation of TMI-1. Descriptions of the organization of individual series are provided directly before the inventory of each series.

RG 7 INVENTORY**RG 7 – MIXED MEDIA**

Series 7.1, Newspaper Clippings (Originals), is arranged chronologically. The materials in this series have been maintained for their value as artifacts, but, due to their fragility, photocopies have been made and are housed in the following series according to the same organizational scheme.

Series 7.3, Newspapers (Complete Sections/Pages), is arranged into sub-series chronologically and then by title of newspaper within the sub-series. The materials contained in this series are complete sections of newspapers, primarily from the central Pennsylvania area. A significant

number of articles in these sections were produced to commemorate the accident at the Three Mile Island, and therefore occur at five and ten year intervals from March 1979.
