* Pursuing Partial Course.

MISCELLANEOUS INFORMATION.

The departments of instruction connected with this institution are—the LAW DEPARTMENT, the COLLEGIATE DEPARTMENT, and the PREPARATORY DEPARTMENT. Information respecting each of them may be found under its appropriate head.

COLLEGIATE DEPARTMENT.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class, must be well acquainted with Arithmetic; Geography; Outlines of Ancient and Modern History; the English, Latin, (McClintock and Crooks' First Book,) and Greek Grammar; Cæsar's Commentaries; Virgil's *Æneid*; Cicero's Select Orations; Roman Antiquities and Mythology; Jacob's Greek Reader, and the Historical Books of the New Testament.

Candidates for any other class will be examined on the studies previously pursued by such class.

Candidates for a partial course will be examined only as to their qualifications to pursue such a course.

It is particularly recommended, however, that all, whose circumstances will justify it, should prosecute the full course of study, being that which long experience has proved to be best suited to accomplish the great end of education—the developing and disciplining of the mind.

The character of a student's preparation for admission will materially affect the whole of his subsequent course, as many of the elementary studies cannot receive that attention in college, which their prime importance demands. It is earnestly desired,

therefore, that candidates will adhere rigidly to the course of preparatory studies here prescribed, and that they will rather endeavour to perfect themselves in these, than anticipate studies which can be pursued to much greater advantage in college. It is, in general, poor economy, to attempt to prepare for admission into one of the higher classes; as it is reasonable to suppose that, with the facilities afforded at college, students will be advanced there, more rapidly and thoroughly, than they could be by teachers less favorably situated. The Preparatory Department of the institution presents peculiar advantages to those who wish to be thoroughly prepared for admission.

No one will be admitted to the Freshman Class, until he has completed his fourteenth year, nor to a higher class without a corresponding increase of age. And it is very desirable that the candidates should be still older, that thus they may be fitted, by greater maturity of mind and stability of character, better to appreciate the studies of their course, and to exercise that self-control, which is necessary for every college student.

All candidates for admission must produce testimonials of good moral character; and if from another college, a certificate of honourable dismissal. They may present themselves for examination, at any time; but it is particularly desired, that they do so either at the commencement of a session, or during the week after Christmas.

COURSE OF STUDY

FRESHMAN CLASS.

CLASSICS, . . . *Latin*; Odes of Horace, Sallust, Livy.
Greek; Xenophon's Anabasis or Cyropædia,
Homers's Iliad.

Classical Geography, Greek and Roman
Antiquities, Greek and Roman Mythol-
ogy, (Manual of Classical Literature.)
Greek Exercises and Written Transla-
tions; Latin Exercises (McClintock
and Crooks').

MATHEMATICS, - - - - Algebra, (Bourdon's,) Elements of Ge-
ometry, (Legendre's.)

ENGLISH, - - - - - English Grammar and Composition.

RELIGION, - - - - - Sacred History.

SOPHOMORE CLASS.

CLASSICS, - - - *Latin*; Satires and Epistles of Horace, Cicero
de Senectute and de Amicitia, Cicero
de Oratore.

Greek; Homer's Iliad or Odyssey; Xenophon's
Memorabilia, Demosthenes de Corona.
Archæology of Greek and Roman Lit-
erature, History of Greek and Roman
Literature, Archæology of Art, (Man-
ual of Classical Literature.)

Latin and Greek Exercises and Writ-
ten Translations.

- MATHEMATICS**, - - - - - Geometry of Planes and Solids, (Legendre's,) Plane Trigonometry, Spherical Trigonometry, (Peirce's,) Drawing, Descriptive Geometry.
Navigation and Surveying, (Peirce's.)
- ENGLISH**, - - - - - Geography, History, and English Composition.
Principles of Elocution, (Caldwell's Manual,) accompanied with Private Declamation.
- RELIGION**, - - - - - Sacred History—Jewish Antiquities.

JUNIOR CLASS.

- MATHEMATICS**, - - - - - Analytical Geometry, including Conic Sections, Elements of the Differential Calculus, with applications, (Peirce,) Civil Engineering. Drawing. Lectures on Perspective.
- NATURAL SCIENCE**, - - - Natural Philosophy, (Mechanics, Hydrostatics, Pneumatics, Acoustics, Electricity, and Electro-Magnetism,) Chemistry, (Johnston's Turner.)
- CLASSICS**, - - - - *Latin*; Cicero de Officiis, Juvenal, Tacitus, Latin Composition.
Greek; Select Plays of Sophocles and Euripides, a dialogue of Plato.
- ENGLISH**, - - - - - Rhetoric, Political Economy, Logic, Written Discussions, Public Declamation.
- RELIGION**, - - - - - Ecclesiastical History.*

*French or German may be substituted, in the Junior year, for Greek, and, in the Senior, for Mathematics. For these languages, there will be an extra charge, until the Professorship of Modern Languages is endowed.

SENIOR CLASS.

- ENGLISH, - - - - - Mental Philosophy, Moral Philosophy, History of Philosophy, Constitution of the United States, (Bayard.)
Public Debates, and Declamation of Original Compositions.
- NATURAL SCIENCE, - - - Mineralogy, Geology, Animal and Vegetable Physiology.—Lectures, with specimens and drawings; Optics; Astronomy, (Norton's.)
- MATHEMATICS, - - - - - Elements of the Integral Calculus, Analytical Mechanics, (Young's,) Civil Engineering.—The Practical use of the Theodolite and other instruments in Geodesic operations. Lectures on Perspective.
- CLASSICS, - - - - - *Latin*; Horace's Art of Poetry, Terence, Latin Composition.
Greek; Select Plays of Æschylus, Sophocles, and Euripides.
- RELIGION, - - - - - Evidences of Natural and Revealed Religion, (Butler's Analogy, Paley's Evidences and Natural Theology.)

The studies of all the departments are pursued by means of recitations, accompanied with lectures on such subjects as will admit of them.

The elementary instruction in *Elocution* is given in the department of METAPHYSICS and POLITICAL ECONOMY—the lectures being accompanied with practical exercises, designed to train the voice, to give ease and grace to the gestures, and to impart to the whole delivery naturalness and strength. In this department is also delivered a course of lectures on the *English Language* and *Literature*.

The course in the NATURAL SCIENCES includes recitations from text-books, and lectures accompanied by illustrations and experi-

ments. The facilities of this department for full and efficient instruction are unusually ample. The apparatus is extensive and valuable, and is annually increasing. The Cabinet of Natural History is abundantly supplied with numerous specimens illustrative of the various productions of the globe. In addition to the valuable mineralogical cabinet belonging to the college, the whole of Professor Baird's collections have been recently deposited, including a very extensive series of North American and European birds, amounting to upwards of three thousand specimens, besides many species of quadrupeds, reptiles and fishes.

In the MATHEMATICAL room, the daily recitations are from the most approved text-books. There are also lectures on the higher branches and on Civil Engineering; and lectures are given on the History of the different branches of the Mathematics and their application to the purposes of life.

In the CLASSICAL DEPARTMENT, it frequently happens, that either different authors, or different portions of the same author, are read by successive classes; but these alterations do not affect the *amount* of Greek and Latin required of those who apply for admission to the higher classes. The books of reference employed throughout the course are Anthon's Classical Dictionary, Zumpt's Latin Grammar, Kühner's Greek Grammar, Ramshorn's Latin Synonymes, Eschenberg's Manual of Classical Literature, Leverett's Latin Lexicon and Liddell & Scott's Greek Lexicon.

Where the subjects are susceptible of it, the students are required to make an analysis (generally in writing) of the works which they study, and to give at their daily recitation, as well as at the public examinations, a connected view of the subject, in their own language and without the aid of the instructor, except on points not fully treated by the author, thus cultivating at once the powers of memory, thought and speech.

Public examinations of all the classes are held three times every year, (*viz*: at Christmas, and at the close of each session,) when those students who have not mastered the previous studies are either required to make up their deficiencies by extra study, or are prevented from advancing with their class. The seniors are examined four weeks before Commencement, on the entire college

course. This is done, in most of the departments, partly by means of written questions, on the various studies, which all are required to answer in writing, without the use of books of reference or any other aid.

ANNUAL EXPENSES.

COLLEGE FEES.—The College bills are to be paid to the Treasurer in advance, per session : and are as follows, viz :

	FIRST SESSION.	SECOND SESSION.
Tuition Fee, - - - -	\$20 00	\$13 00
Fees for use of recitation rooms,		
Printing and Library,	3 50	2 00
	<hr/> \$23 50	<hr/> \$15 00

Students lodging in College pay for room rent, from \$4 to \$6, for the first session, and from \$2 to \$3 for the second ; and fifty cents per session for keeping the halls in order. It will conduce at once to health and economy, for them to prepare their own wood, and keep their own rooms in order ; but if they prefer to employ servants, they can be had for a very small fee.

BOARD, &c.—Students not resident in town are required to lodge in the College edifice. It would be well, therefore, as they have to provide their own furniture, that each should bring with him a single bed, bedding, towels, &c. Heavy furniture, such as bedstead, table and chairs, can be better procured in the town. The original cost of them is but small, and they may afterwards be sold at a trifling sacrifice.

The Steward of the College resides in one of the buildings, and keeps a table at his own expense, but subject to such regulations as the Faculty may prescribe. The price of board is \$1 50 per week, to be paid monthly in advance.

The price of board in town varies in different boarding houses, but none are allowed to charge more than \$1 75 per week. Students who dispense with tea and coffee can get board for \$1

per week, or if they prefer to board themselves, the expense may be reduced as low as 62½ cents per week. Oak wood can be had for \$2 00 per cord, and hickory for \$3 00. Washing for \$1 per month, or 30 cts. per dozen pieces. It will thus appear that all the necessary expenses of a collegiate year may be met with \$100, and ought never to exceed \$135.

Arrangements have been made by which the regular text books can be furnished here at a cost below the city retail prices. As economy is essential to the moral and literary character both of the Institution and of its members, the greatest care will be taken to restrict the expenditures of students. One method which is adopted for this purpose, is presented in the following section, to which the attention of parents and guardians is particularly invited.

MANAGEMENT OF FUNDS.

All students, (except those who reside in town, and at the discretion of the Faculty, those who are of age,) are required to have a Patron, to take charge of their funds and disburse the same. He may be selected from among the Faculty, or the citizens of Carlisle, and may charge for his services a commission of three per cent. on all disbursements. As the success of this system depends mainly upon the co-operation of parents and guardians, it is earnestly requested that they will signify to the Patron, at the beginning of each session, whether their sons or wards are to be allowed to incur any other than the necessary bills stated above, and if so, for what articles, and to what amount :—that they will inspect minutely the monthly accounts of disbursements, which will be sent to them, and communicate promptly to the Patron, any objection which they may have against them ; and especially that they will forward all funds directly to the Patron, as a student who receives money from any other source than from his Patron, or who fails in case he does so receive any, immediately to deliver it to his Patron, is regarded as guilty of a high offence. Remittances may be made either in cash, or what is better, by draft or check,

upon Baltimore, Philadelphia or New York, payable to the Patron's order.

It must not be expected that even the most faithful observance of this system will, in every instance, secure all the economy which might be desired, but it must doubtless be much more successful than the ordinary method of allowing students the uncontrolled use of money.

TERMS AND VACATIONS.

The collegiate year is divided into two sessions.

The first, beginning on the 15th of September, and ending on the Friday before the first of April; the second, beginning at the termination of the first, and ending at Commencement, on the second Thursday in July. The only regular vacation, then, is the interval from Commencement till the 15th of September; to which may be added, at the discretion of the Faculty, a few days recess at Christmas, and at the end of the first session.

LIBRARIES.

The College Library contains about - 3,800 vols.

The Belles-Letters " " - 4,500 "

The Union Philosophical " - 3,700 "

Total, - - - - - 12,000 vols.

All of these are accessible to every student.

RELIGIOUS INSTRUCTION.

Prayers, with reading of the Scriptures, are attended in the chapel, on the morning and evening of every day, except Saturday and Sunday, when the evening service is omitted. The students are also required to attend public worship twice on the Sabbath—in the morning, at such church, always, as their parents or guardians may designate in writing.

PREPARATORY DEPARTMENT.

The studies pursued in the Preparatory Department are, the elements of the Latin and Greek Languages, Arithmetic, Geography, History, English Grammar, Composition and Natural History.

It is particularly recommended, that those who propose to enter the College, should pursue a part, at least, of their preparatory course here. This department is under the same government with the College ; and the instruction is given by four of the Faculty.

LITERARY AND SCIENTIFIC COURSE.

For those who may not wish to pursue a full course, an English course is provided. The first year embraces the studies of the Preparatory Department, except the languages ; the second, those of the Freshman and Sophomore year's, with the same exception. The third, those of the Junior and Senior years, except the languages and mathematics.

Those who are prepared can enter on any one of these years, and at the close of their course, if they pass a satisfactory examination on the whole, they will receive a Certificate of proficiency, under the seal of the College. Students pursuing this course, may also attend on any other recitations of the College, when the hours do not conflict with their appropriate studies.

GENERAL REMARKS.

The government of the Institution is strictly parental. It is designed to secure attention to study, and correctness of deportment, not so much by the enforcement of rigid enactments, as by cultivating in the student, a taste for intellectual pursuits, and virtuous habits. But while youthful indiscretion will be treated with lenity, it is resolved that incurable indolence, bad morals, and pecuniary extravagance, shall not be

suffered to remain to exert their corrupting influence within our walls.

A faithful record is kept of the standing of each student, and a report of it is sent monthly to his parent or guardian.

For the benefit of indigent students, it has been provided, that in cases where the Faculty are satisfied that a student of approved character is unable to pay his tuition money, the Treasurer may take his note or bond for it, which shall not bear interest until two years after his leaving College, and shall never be put in suit.

LAW DEPARTMENT.

This department is under the immediate care of the HON. JUDGE REED; and the Law School is distinct from College regulations.

The months of April and November are the regular vacations in this department; but students are received at any period of the year without regard to vacations or time.

Stated recitations and examinations, accompanied with familiar instructions, occur twice a week.

Discussions in the Moot Court are held once a week, when occasion is taken to deliver a lecture upon the subject discussed.

Students are prepared thoroughly for admission to the Bar. The period of study is regulated as in ordinary cases by the rules of Court. The time now prescribed, is two years for a graduate of any respectable college, or for one over the age of twenty-one years. And three years for one who is not a graduate of College, and who is under the age of twenty-one.

Upon a final and satisfactory examination, the degree of "Bachelor of Laws" will be conferred by the Faculty; but no student of bad morals shall receive his degree, and the Faculty of the College shall have concurrent judgment in the case with the Professor of Law.

The course of studies pursued in preparing Students for admission to the Bar, is as nearly conformable to the following order as practicable, viz :—

Pennsylvania Blackstone, accompanied with the original text.	Pennsylvania Practice. Chitty on Bills. Paley on Agency. Jones on Bailment. Collyer on Partnership. Toller's Law of Executors. Theobald's Principal and Surety. Platt on Covenants. Chitty on Pleading, &c. Story on Constitutional Law.
Kent's Commentaries.	
Stephen on Pleading.	
Philips' Evidence.	
Fonblanque on Equity.	
Powell on Contracts.	
Comyn on Contracts.	
Sugden on Vendors.	
Angel and Ames on Corporations.	

Books of Reports, Acts of Assembly, Books of Practice, and miscellaneous authorities, are extensively consulted, in weekly preparation for discussions in the Moot Court, and in conducting a constant course of fictitious pleadings.

The above order must sometimes be transposed, and some books must be omitted, where time is not allowed to perfect the course, and some must be REVISED, often more than once. The course is in some respects varied, according to the State in which the student may design to practice.

Any period regularly studied elsewhere will be accounted for, in the time as above stated, agreeably to our rules of Court.

The price of tuition in the Law Department, embracing all charges, is seventy-five dollars per annum.

Particular attention is bestowed upon the subject of practice. It is attended to in all its forms in the Moot Court. Ample means are afforded, not only for acquiring a knowledge of the theory, but for perfecting that knowledge by constant exercise.

The use of the library, text-books, stationery, office-rooms, and fuel, furnished to the students of the Law School without additional charge.

No student is allowed to board or lodge at a hotel; and frequenting a tavern, needlessly, will be esteemed a withdrawal from the Institution.
