My Dear Sir

In the hope that
from day to day I should be enabled
to say something definite as to my ultimate
movements I have deferred writing you
but really I am as far off as when at
Carlisle, The last mail brought the Major
of the Governor of South Carolina &
from it you will perceive that he does
not merely intend annulling the law
of Congress by a jury but by stronger
measures just in its madnets and I
have no doubt but in a day or two
a movement will be made to counteract
so far as an effort at a division of
the Union as J. C. Sumner determined
on (a force is in preparation and
I am to be its Chief) My family

were placed enough at home during
two days after I reached here which
was on last Tuesday. I wish
at Washington was as I wished, I feel
some solicitude on the subject of my
affairs in Pennsylvania I hope you
have been able to sell the stock as
I should dislike very much to let
the first bond fall due without paying
it, so sure as God is in heaven Genl
Jackson will be selected in that event
stocks must fall and I would rather
that 7 per cent is a good offer in
mine as it can be paid only in a
small portion at 5 per cent, whether at Penna
seca or here we shall want those domestic
travellers right and I can perhaps
then be between them and Christmas
If you can sell all the stock do so and
advise me of it

Mr. Patton thought he could find me
a purchaser for my farm on the
North and promised he would look
me out and advise you of it.
has any thing been done with
Auphimbaugh he wants only the
Pass and books of an Animal
to be one, it seems to me that if
some decent man could be got to
take that house it would be an
acquisition to your Farm =

My own health is on the wane
but the children are tormented to
death with Mosquitoes all year round
in a great deal of love to each
and all the members of your family

My Dear Sir

In the hope that from day to day I should be enabled to say something definite as to my ultimate movements I have deferred writing you but really I am as far off as when at Carlisle. The last mail brot the message of the governor of South Carolina & from it you will perceive that he does not merely intend annulling the law of Congress by a jury but by stronger measures get it in readiness and I have no doubt but in a day or two a movement will be made to countermand from this an effort at a division of the Union as S. C. seems determined on (a force is on for operation Confidential and I am to be its Chief) My family was placed snugly at house keeping two days after I reached here which was on last Tuesday Week Everything at Washington was as I wished, I feel some solicitude on the subject of my affairs in Pennsylvania I hope you have been able to sell the stock as I should dislike very much to let the first Bond fall due without paying it, so sure as God is in heaven Gen^l Jackson will be re-elected in that event Stocks must fall and I would suppose that 7 per Cent is a good offer for Mine as it Cost me par only except a small portion at 5 per Cent. Whether at Pensacola or here we shall want those and I can purchase them here between this and Christmas. If you can sell all the Stock do so and advise me of it.

Mr. Patten thought he could send me a purchaser for my service on the War and promised he would look one out and advise you of it. has any thing been done with Aughinbaugh he wants only the Ears and hocks of an animal to be one, it seems to me that if some decent man could be got to take that house it would be an acquisition to your town.

My own health is on the mend but the children were tormented

to death with Musquitoes all join me in a great deal of love to
each and all the Members of your family

Very truly
your friend
