Do your vacation plans call for flying to your destination? If so, DO NOT pack your film in your suit case! Put all film in your carry-on bag instead. Why? The Federal Aviation Administration is installing new explosives-detection systems in 116 airports nationwide to screen checked baggage. These systems have the same technology as "CAT" scanners and more than likely will damage film. Don't take chances with your film.

Are you getting unwanted credit offers in the mail? Do you wish you could put a stop to it? You can and here's how to do it: Call 1-888-5OPTOUT(1-888-567-8688). You'll be given a choice to opt out for 2 years or permanently. If you decide to opt out permanently, you'll be mailed a Notice of Election to opt out permanently. You must sign this and return it to activate your permanent opt out. That's all you have to do! Easy! Next month: Reducing junk mail and junk phone calls.
