Remembrance...

September 11, 2001 was a day we will never forget. That is the day that thousands of innocent people died at the hands of terrorists at the World Trade Center in New York, and at the Pentagon in Washington, DC, and in Somerset County, PA. Let us remember the innocent victims of these horrific attacks by saying a prayer, or having a moment of silence on September 11.

Thank you...

For your help in making this year's Central Pennsylvania Pride Festival a huge success! There was over 3,200 people who paid to get in, and when you add in volunteers, vendors, and other helpers, attendance was over 4,000. This year's festival was the best yet!

Health Spotlight....

BRAIN BOOSTERS

This month we'll learn ways to boost your brain! Your brain's processing speed gradually slows down as you age. And with age, you are likely to begin experiencing problems with remembering names or numbers. What can we do to help keep our mind healthy and sharp?

Diet, exercise, vitamins, and mental gymnastics are ways to keep your mind sharp. Last month we talked about diet and exercise, and now we'll talk about challenging your brain and the role of vitamins for a healthy mind. Mental gymnastics are just as important as physical workouts in preserving brainpower. What should we do? We can take up word games like crossword puzzles, memorize our favorite poems or famous passages from Shakespeare, read challenging books or articles to expand your interests, practice doing things with your left hand if you are right-handed and vice versa, go back to school, take music lessons, or learn a new language. Don't just sit there vegging in front of the TV!

Vitamins play an important part in having a healthy brain too. Are you taking a multivitamin every morning? You should be! Multivitamins have antioxidants like vitamin C and E that protect brain cells from damage from free radicals. Free radicals are troublemakers! They can harm your brain cells. By taking a multivitamin you receive other key nutrients that have been linked to healthy brain function, such as beta carotene, iron, zinc, B12 and folic acid.

If you want a healthy brain, just remember this: diet, exercise, vitamins, and mental gymnastics. Now I remember where my car keys are!
