## Health Spotlight....

### NATIONAL VOLUNTEER BLOOD DONOR MONTH

This is the time of the year where blood donation really drops off. Blood supplies are at a critical level during the winter months. Why? The weather is a factor, people traveling over the holidays, etc., etc.

A lot of you probably have never donated blood before, have you? It's easy! Nothing to it! All you have to do is go to a donor center, or if there is a blood drive going on somewhere with the blood mobile, go there. The blood mobile goes to malls, churches, etc. You can check the Central Pennsylvania Blood Bank's web site to see the schedule for the blood drives: [www.cpbb.org/donate.html](http://www.cpbb.org/donate.html), or you can call them at (717) 566-7848 for information. This website explains everything about blood donation, including who can and cannot donate blood.

Once you get there to donate blood, you will be given a registration form to fill out and to read a pamphlet "Important Information for Blood Donors". You will then be given a "mini-physical" by a technician, and you will need to complete a brief medical history. They will test your iron level in your blood, and then they will draw about a pint of blood from you. After your blood has been drawn you will be asked to relax for a few minutes and given some refreshments. After you leave you can resume your normal daily activities. The whole process takes about 45 minutes.

The most important reason for becoming a blood donor is to help meet the blood needs of our communities. Would you believe that only 7% of the population donates blood on a regular basis? There is no substitute for human blood; blood donors are the ONLY source. Every three seconds someone needs blood! Just 1 pint of blood can save as many as four lives. Think about it! Four lives!

Don't want to go by yourself? Make it a group activity! Grab a couple of your friends and go donate blood! You will all feel great knowing that you are helping others in need.
