Ms. Kleen sez....

Welcome to a new feature in the Lavender Letter. Ms. Kleen will bring you cleaning tips each month, tips to make your life at home easier.

SINK STINK?

Do you have a garbage disposal in your kitchen sink? Does it stink? You can go out to some store and buy disposal deodorizing tabs for a couple bucks, OR, you can save some money and use these things that you might have in your house:

Baking soda - take about a 1/4 cup and put it down the disposal, run hot water in the sink, turn on the disposal for about 30 seconds, and continue to run the hot water for about 1 minute. No more stinky sink!

Orange - take 1 orange and quarter it. Put 1 quarter down disposal, turn on the water, turn on the disposal, and continue to do that with each quarter, and then let the water run for about a minute. Smells nice and orange-y!

Lemon - cut a lemon in half, put half down disposal, run the water, turn on disposal, put other half down and do the same steps, and then let water run for about a minute.

Want to keep your disposal blades sharp? About once a month put 5 or 6 ice cubes down disposal, turn on the water, and then turn on the disposal, and then turn off when it is done chopping the ice cubes. This will help keep those blades sharp!

Health Spotlight....

HOSPITAL VISITATION: A RIGHT FOR ALL FAMILIES

Have you given much thought to what could happen to your partner if you have a medical crisis and have to go to the hospital? Hospitals don't always recognize same-sex partners as family because of homophobia, inadequate staff training, or some policy flaw. Even domestic partnership registration or a civil union doesn't guarantee that same-sex couples will be treated as family. So your partner would be denied the right to see you or to confer with your doctors as to your condition.

What can you do? Lambda Legal can show you what to do to make sure that you and your partner are recognized by the hospital. They have a Full Action Kit available online at www.lambdalegal.org that explains what you can do. They tell you what to do if you are discriminated against by the hospital, how you can change local hospital policies, and more. The kit also contains sample letters, sample policies and descriptions of critical life planning documents.

What kind of documents? Couples should have wills, powers of attorney and healthcare proxies. These documents make your healthcare wishes be known to your doctor and the hospital, and helps establish who can make decisions on your behalf. It's something that every couple should be thinking about, and then doing something about it.

Lambda Legal even tells you what you and others can do as far as starting a grassroots campaign to get all hospitals to recognize same-sex couples. Did you know that national hospital accreditation standards defines family as anyone who plays a significant role in a patient's life, regardless of legal ties? Protect your family!
