THE CRIPPLE OF INISHMAAN

BY MARTIN MCDONAUGH

OCTOBER 3 TO 19

It's 1934 and director Robert Flaherty is coming to Inishmore to film Man of Aran. On the neighboring isle of Inishmaan, young Cripple Billy wants more than anything to be in the film, if only to break away from the bitter tedium of his daily life. A new play by the author of The Beauty Queen of Leenane.

Ticket prices are \$22. For more info please call: (717) 232-6736, or visit their website: [www.openstagehb.com](http://www.openstagehb.com).

### THEATER OF THE SEVENTH SISTER

NOVEMBER 13 - 30, 2003

PROOF

Winner of the 2001 Pulitzer Prize for Drama and the 2001 Tony Award for Best Play, Proof is the most heralded new American play of recent history by David Auburn.

It's the story of a young woman, Katherine, who has spent years caring for her father who is a brilliant mathematician, and her father began having various kinds of mental illness problems. She gave up her life to care for him. When the play begins the father died. She is sitting alone on her 25th birthday and wondering is this going to happen to me. How much of my father's mental illness have I inherited and have I inherited any of his talent as well? So the play is about a weekend in her life where she is trying to sort that out and she is trying to deal with her sister, who's flown in from New York and she has some plan's for Katherine's life. There is also a character who is a grad student who is a protégé of the father's who is upstairs in the house looking through the dad's papers hoping to find something he left behind. He also kind of has designs on Katherine.

For more info please call: (717) 396-7764, or visit their website at: [www.seventhsister.com](http://www.seventhsister.com).

### CLOTHES DRYER VENT

Did you know that your clothes dryer vent is a potential fire hazard? You know, that big long tube sticking out the back of your dryer that is vented to the outside. Lint collects in these tubes and reduces the efficiency of your dryer. If too much lint is allowed to collect there, you've got a fire hazard.

You should clean these tubes out at least once a year. Look at the back of your dryer, see where the tube is clamped to the bottom of your dryer? Take a screwdriver and loosen the clamp so the tube comes off the back of your dryer. Do the same thing to the other end of the tube where it goes to the outside. Take your vacuum cleaner and remove any lint build-up in that hole in the dryer. Check for lint build-up where it goes to the outside too.

Ok, let's move on to that tube. If your tube looks like it's past it's prime, go to Home Depot or Lowe's and buy another one to replace it. Make sure you measure it first before you go to the store. Measure the length, and then measure the diameter of the tube opening.

You can use your vacuum to suck the lint out of your tube. When you are satisfied that your tube is pretty clean, hook it back up to the dryer and also where it goes to the outside. Good job! Now your dryer will operate more efficiently, AND you have eliminated a potential fire hazard.

## Health Spotlight....

### OCTOBER IS BREAST CANCER AWARENESS MONTH

When was the last time that YOU had a mammogram? Talk to your doctor about making an appointment for one if it has been a while. All women over 40, it is important to have a yearly mammogram. Try to have your mammogram done at the same place every year. Why? That way the radiologist can compare your new mammogram to your old one to see if there were any changes in your breasts from the previous year.

Your risk of developing breast cancer increases as you get older. What are some of the other risk factors? There are genetic risk factors, meaning that it is hereditary in about 10% of breast cancer cases. Would you believe race is a risk factor? White women are slightly more likely to develop breast cancer than African-American women.

There are also lifestyle-related factors, such as not having children. Oral contraceptive, hormone replacement therapy, alcohol, and being overweight, are some of the other risk factors.

What are the signs and symptoms of breast cancer? A swelling of part of the breast, skin irritation or dimpling, nipple pain or the nipple turning inward, redness or scaliness of the nipple or breast skin, a nipple discharge other than breast milk, and a lump in the underarm area.

Do you do a monthly breast self-exam? Do you know how to do a self-exam? If you don't, please talk to your doctor about it, or check the American Cancer Society website at: [www.cancer.org](http://www.cancer.org).
